## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

U.S. Patent 7,150,823 teaches a method of removing aluminum from a hydrocarbon feed, but the Patent does not teach or suggest a step of passing a Fischer-Tropsch feed stream containing 5 ppm or more of aluminum having an effective diameter of less than about 1 micron into reaction zone operated up-flow mode with an aluminum active catalyst in a guard-bed under aluminum activating conditions to form a feed mixture comprising aluminum-containing particles having an effective diameter of more than 1 micron and passing the feed stream mixture through a second particulate removing zone to produce a Fischer-Tropsch product containing less than about 5 ppm total aluminum.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tam M. Nguyen whose telephone number is (571) 272-1452. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Calderola can be reached on (571) 272-1444. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
